Alternatives & Other	13.0%

Investment Risk Rating*

Medium to High – 5

Investment Objective, Strategy and Benchmark

To outperform (before fees and tax) the Investment Option’s Performance Benchmark – a weighted average mix of market indices relevant to the Option’s long-term strategic asset allocation. It may invest in one or multiple UMFs and/or directly invest in Authorised Investments to have an actively managed balanced portfolio.

¹ Total Management Fees is provided on an after-taxation basis and comprised of the Futurity Management Fees and UMF Investment Fees (includes the estimated UMF indirect costs) – see ‘Fees and Other Costs’ – Part A of PDS.

² Longer investment timeframes maximise the benefits of investment compounding, especially for medium and higher taxed investors doing this under an Education Bond’s Tax-Paid investment structure. Education Bonds also have an ‘Investment Bond 10-Year Advantage’ meaning the benefits of Tax-Free access to your Bond after 10 years from its Commencement Date, subject to certain conditions as explained in Part A of our PDS.

* Performance is measured by Investment Option price movements (after Tax and Management fees). It is quoted using the sell (exit) price and is net of all portfolio taxes, management fees, and fund expenses, however does not take into account any stamp duty, transaction costs and management fee rebates. Past performance is not a reliable indicator of future performance.

ABOUT THE INVESTMENT MANAGER

MLC

MLC has been looking after the investment needs for generations of Australians. MLC believes the best way to manage portfolios is to employ the skills of multiple specialist investment managers.

MLC’s investment experts research hundreds of investment managers from around the world and select the managers they believe are the best for their portfolios.

MLC’s investment experts have extensive knowledge and experience at designing and managing portfolios using a multi-manager investment approach.

MLC’s investment experts do this by:

- Adjusting the allocations to the asset classes away from the benchmark asset allocation, while aiming to remain within the defined ranges.
- Researching and selecting a broad range of mainstream asset classes, and including some exposure to alternative assets and strategies.
- Researching hundreds of investment managers from around the world and selecting the managers they believe are the best for the Portfolio. These investment managers, who are mainly active managers, choose many companies and securities in Australia and overseas for investment.

MLC makes sophisticated investing straightforward.

ASSET MANAGEMENT

PERFORMANCE HISTORY

Futurity Diversified Active – Balanced at 31 December 2024³

1 Mth	3 Mths	6 Mths	1 Yr	2 Yrs	3 Yrs	4 Yrs
-0.78%	0.38%	3.12%	5.72%	6.13%	2.25%	3.06%

³ Other costs relating to the operation of the Investment Option can be charged directly to the Investment Option or reimbursed to Futurity if paid by the Management Fund e.g. acquisition, disposal, valuation and transaction costs, such as brokerage, state duty, insurance, custody, as well as auditor, actuary and legal fees. They are reflected in the Unit Price and capped to a maximum of 0.1% pa, with any excess absorbed by the Management Fund.

GENERAL MARKET UPDATE

Over the December 2024 quarter, investment markets have been driven by central bank interest rate adjustments, persistent inflation trends, rising bond yields, mixed equity market performance, economic indicators showing contraction, and political tensions impacting investor sentiment.

The December 2024 quarter saw mixed performances in global markets. Global equities rose, with the MSCI World index up 1.9% hedged to AUD and 12.1% unhedged to AUD, while emerging market equities rose by 3.0%.

Developed market bond yields increased, reflecting a shift in investor sentiment. The Federal Reserve's slower-than-expected rate-cutting cycle and political tensions in the U.S. contributed to market volatility.

In the U.S., 10-year Treasury yields rose to near 4.6%, nearing their annual peak. Rising yields negatively impacted bond

performance, particularly long-duration U.S. Treasuries, which saw a sharp decline.

Central banks made several policy adjustments: the Federal Reserve reduced its policy rate by 25 basis points to 4.5%, the European Central Bank cut its rate to 3%, and the Bank of Canada reduced its rate by 50 basis points to 3.25%. The Reserve Bank of Australia maintained its cash rate at 4.35%.

Australian equities fell by 0.8%, with the S&P/ASX 300 Accumulation Index lagging the S&P 500.

The Australian dollar depreciated against the U.S. dollar, with the AUD/USD ending the quarter 0.62. The Judo Bank Australia Manufacturing PMI indicated continued contraction, and consumer confidence declined.

Futurity Investment Group Limited ABN 21 087 648 879, AFSL 236665 (Futurity) is the product issuer of Futurity's Education Bonds (Education Bonds).

This document has been prepared for the purpose of providing general information, without taking account of any individual's objectives, financial situation or needs. Before making any investment decision (including switching between Investment Options), personal circumstances need to be considered.

It is important that prospective or existing Bond Owners read the relevant Combined Financial Services and Product Disclosure Statement (PDS) (available on our website www.futurityinvest.com or by calling us on 1300 345 456) before deciding to acquire, to switch between Investment Options or dispose of Education Bonds.

The licensed financial adviser remains responsible for any advice/services provided to clients including making their own inquiries and ensuring advice/services are appropriate and in accordance with all legal requirements. Therefore, any advice/services must not be attributed to Futurity or in any way suggest that Futurity is the author of the advice/services. Any representations or statements made beyond those stated in the PDS are expressly disclaimed.

Neither Futurity nor any of the underlying fund managers guarantee (whether expressly or impliedly) the repayment of capital or the performance of the Education Bond or any individual Investment Option. The Investment Options are subject to investment and market risks, which could include delays in repayment and loss of earnings and capital invested.
